

Community Update  
April 2019

In October 2018, the Victorian Government unveiled a landmark action plan to protect the iconic Great Ocean Road coast and parks for generations to come.

Work is now underway on the implementation of this Action Plan.

An early action is involving the community in developing long-term objectives and a shared vision for the future of the region that protects the iconic landscapes and liveability of local communities and provides for a great visitor experience (Action #8). This vision is a key input that is required for the subsequent development of an overarching strategic framework plan for the region that provides future direction for land-uses, landscape and visitor management, and sustainable economic development.

Help shape the future of the Great Ocean Road region by attending one of the following community forums:
