

# Temporary pathway detour

Rockwall repairs on Patterson River trail to stabilise pathway

Repairs to the rock retaining wall are required to prevent ongoing erosion of sections of the Patterson River trail.

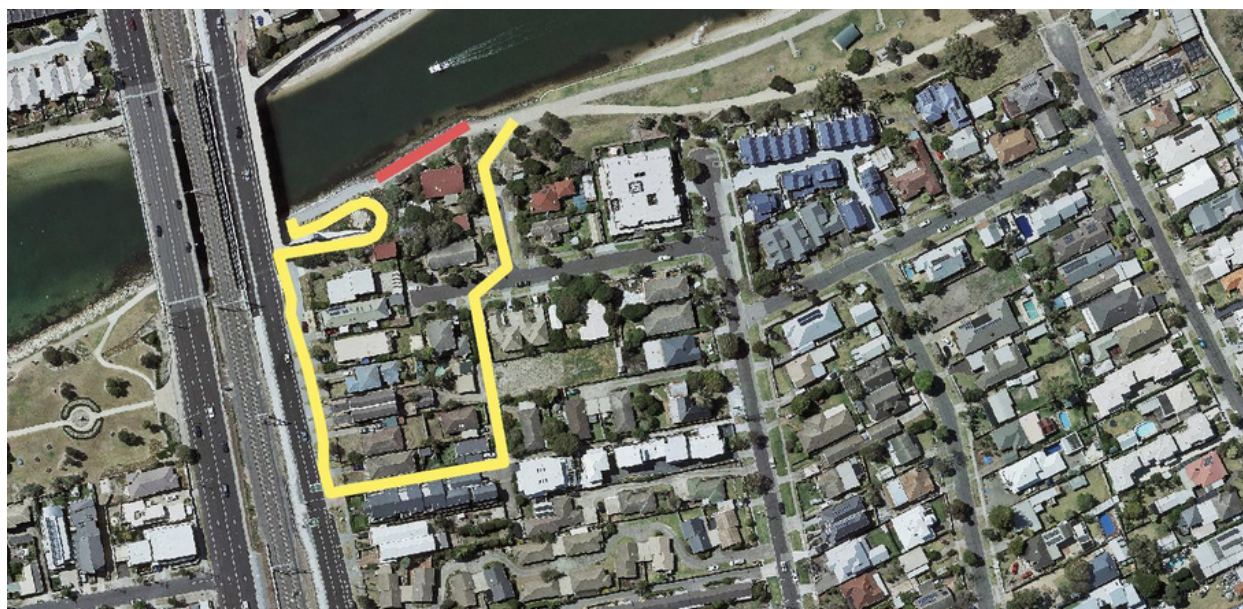

## Timing

A 30-metre section of trail along Patterson River's southern bank will be closed while rock wall repairs occur.

**A 400-metre detour will be in place from 25 September to 29 September 2023.**

## More information

Improvement works are being delivered by the Dept. Energy, Environment and Climate Action's Community Infrastructure Accessibility and Sustainability Program, delivering targeted investment towards safety upgrades across public land.
